

3NOT Robotics

For GenZ & Beyond

Mini-Mowgli

Gamified, educational, personal assistant robot

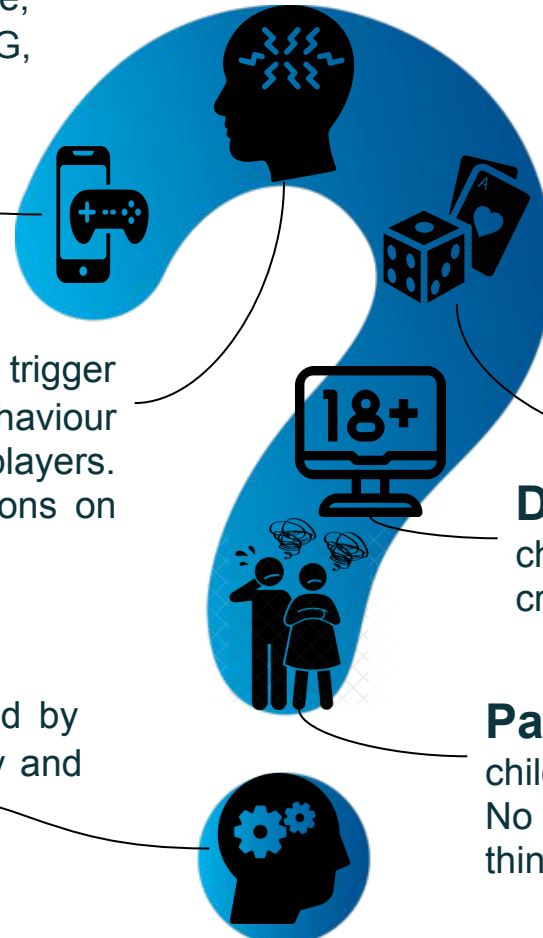

About Us

Kids are getting addicted to addictive, Gambling, adult gaming Like PubG, dream11, Teen Patti and many more

Violent games like PUBG can trigger aggressive thoughts, emotions and behaviour affecting the mental well-being of the players. These can create long-term impressions on the minds of young **children**.

Cognitive ability is greatly affected by the type of video game childrens play and type of contents they consume

Problems

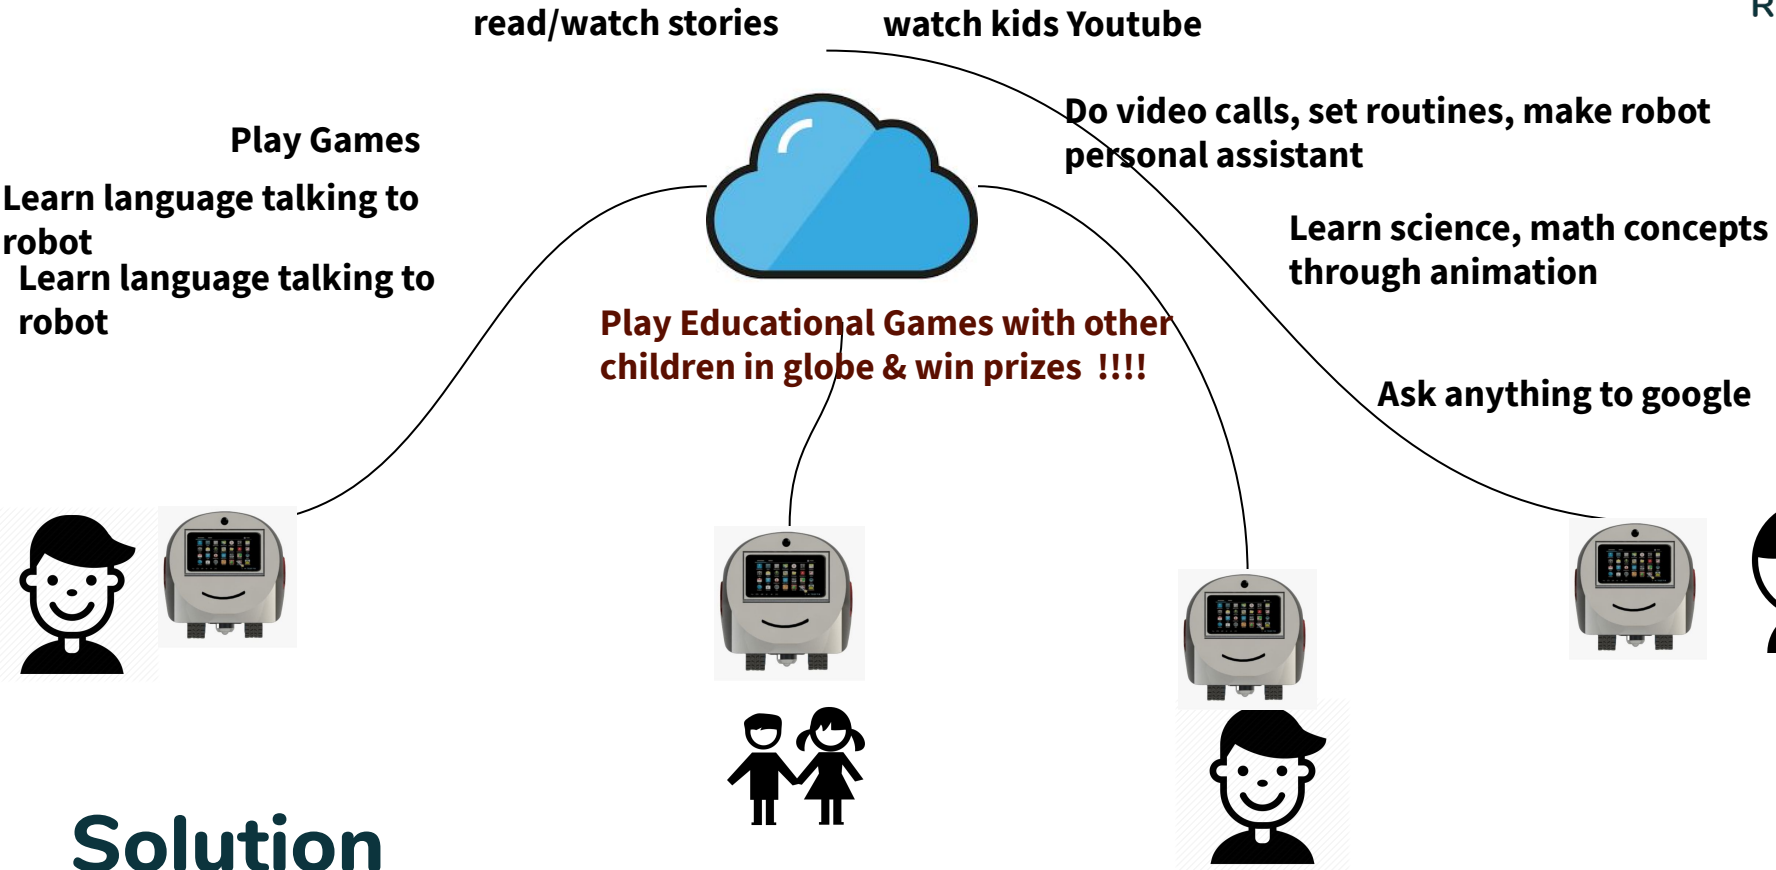

Kids as young as 11 have problems with gambling, while almost half a million kids have admitted to betting regularly.

Due to early exposure to adult contents, childrens facing behavioural changes & crime rate is increasing

Parents are always in fear that their children don't get exposed to bad thing. No proper system to track children's thinking changes
